PDRPMC-APSEMO ADVISORY 2025-05

WEATHER DISTURBANCE DUE TO HEAVY RAINFALL

January 29, 2025, 11:00 PM

Based on the Weather Advisory No. 3 issued by PAGASA today, January 29, 2025, at 5:00 PM, the Province of Albay is forecasted to experience continuous heavy to intense rainfall brought about by Shear Line affecting the eastern section of southern Luzon, that may cause potential localized river swelling, flash floods and landslides from today until tomorrow, January 30, 2025.

To mitigate the adverse effects of the weather disturbance, the Albay PDRPMC issues the following for disaster avoidance and public safety:

Suspension of Classes

Localized suspension of face-to-face classes may be implemented tomorrow, January 30, 2025, based on local conditions.

Local Government Units – C/MDRRMO

1. Vigilance in monitoring:

All LGUs and their C/MDRRMOs are advised to remain vigilant and maintain 24-hour monitoring of their respective areas, especially those prone to floods, lahar flows, flash floods, and landslides. Appropriate and timely countermeasures, including localized evacuations, should be executed as needed.

2. River Monitoring BRRMCs:

Should closely monitor river conditions and prohibit river crossing in case of river swelling and unsafe conditions.

So ordered:

BABY GLENDA D. BONGAO
Acting Governor and PDRPMC Chair
